YOUR TRADE TRUSTED PROFESSIONALS

KING OF THE CLEANERS

Winter is just around the corner, but with KING B Carpet Cleaning Service's revolutionary deep steam extraction method, soggy wet carpets needn't be a problem. With almost 5 years experience in the industry you can be assured that Bryan Price will ensure that your carpets get the best clean ever.

A high-quality, deep steam extraction machine (installed into the KING B van), ensures that customers receive a great carpet clean, Bryan says.

The machine heats water onboard to a very high temperature, which means faster drying time than other carpet

cleaning systems, without using your power or hot water.

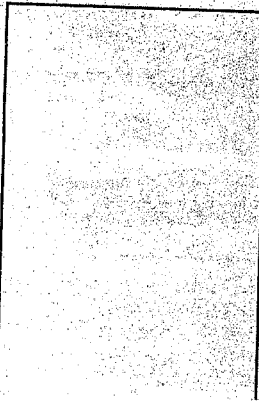

Their Window Cleaning service is proving to be extremely popular with the clients, as is the carpet laying service

also. This saves our customers precious time by not having to ring around for different tradespeople"

Bryan was trained by one of the best carpet cleaners in the business,

so your carpets are in safe hands.

Call KING B Carpet Cleaning Services on 878 6699 to ensure that your carpets and windows are in tip-top condition.
